

Gzowski Au Project

Northwestern Ontario

FLYROCK

Project Highlights

- Early exploration Au project. Two land packages totalling 869 ha.
- Situated in the relatively unexplored Onaman–Tashota Greenstone Belt.
- Historically massive mineralization was exposed on the McCann showing (1952).
- Access via Kinghorn Rd. into western portion of the property. Logging roads throughout the area provide additional access.
- King-Dodds showing to northeast historically has shown pyrite mineralization and free gold in narrow quartz vein.
