

# Heenan Au Project Northeastern Ontario

FLYROCK

## Project Highlights

- Exploration-stage Au property consisting of 31 contiguous unpatented claims, totaling 672 ha.
- Easily accessible year-round.
- Recent assessment work include UAV mag. sus. survey which outlined two distinct linear anomalies.
- ~\$100K in assessment reserve.
- Historical drilling by Falconbridge returned an average value of 1733ppb Au over 11.5ft. Channel sampling nearby returned values of 2100 & 2000ppb Au.
- Additional historical grab sampling by Halex returned a value of 2674ppb Au.
