

Ogden Au Project Northwestern Ontario

FLYROCK

Project Highlights

- Exploration-stage project consisting 14 unpatented claims between 2 claim blocks, totaling 231ha.
- Historic Naybob Gold Mine located to the north - produced 194K tonnes @ 7.33g/t (1933-1942), 5,450 tonnes @ 1.95g/t (1945-1948).
- Multiple Au, Cu, Zn and Ni occurrences in the area.
- DDH done in area returned significant Au intercepts up to 2733 g/t Au over 0.93m.
- Recent assessment work included UAV LiDAR and mag. sus. surveys - identified 3 mag. anomalies and multiple unmapped lineaments.
